

Possible Plans for the Future

The Superintendent discussed the various cases and made general summaries. The "possibilities" are briefly summarized as follows:

Continued Custodial Care	22
Possible parole cases	10
May be returned to relatives later	1
Should be transferred to Waterbury	1
Too young to plan for	4

The history of one man is unknown since he has been in the institution some time and was transferred from Massachusetts.

Length of Time in School

The length of time that these 44 inmates have spent in the School is as follows:

-1 year	1
1	4

Mental Tests

As every inmate is placed in this institution because of mental deficiency it is expected that all have low intelligence quotients. These ratings are given because it is interesting to note what a large number correspond with the ratings of the pupils at the Vergennes Industrial School.

31-	1	50-	1	71--	1
36-	2	52-	2	73-	1
37-	1	54-	1	79-	1

43-	2	62-	1		
45-	2	64-	2		
47-	1	65-	2		
48-	1	66-	2		

School Work work

The pupils are assigned to classes and work on a very elastic plan. A pupil may be in the 2nd grade in one subject and in the 4th grade in another. He may rate very low in class-room work and very well in manual training. Again he may rate low in all formal instruction and be, in the words of the Superintendent--"a useful member of society," because of the way he does <sup>his</sup> assigned task.

The following schedule was given for all the inmates of the School:

Pre-school	22
Grade 1	10
Grade 2	13
Grade 3, 4, 5, 6,	27 in all

Manual Training---

No. 1	42
